**HAMILTON.** The second city in the province in respect to pop and business importance, is situated on the s-w shore of Hamilton bay, at the extreme western end of Lake Ontario, and occupies a commanding position on a slightly elevated plain, at the foot of what is locally known as the "Mountain," a range of hills that nearly encircle the city, in Wentworth Co, of which it is the co seat. It has besides the water routes of the lakes, the main line of the southern div of GTR, running to Suspension Bridge, and the GW div to Windsor, the Toronto line of the same road, and the N & NW div GTR, giving access to Lake Erie, the Georgian bay and the Muskoka and Parry Sound Dis, affording direct transport for its manufactured products to all important points of the railway and steam navigation systems. The city has a large number of manufacturing establishments of various descriptions, the products of which form the staple of her export trade. On Main street is located the court house, a fine building erected by the county in 1879, at a cost of $120,000, and on James street n the newly erected and handsome city hall. The Provincial Insane Asylum, on the Mountain, is the finest building of that description in the Dominion, and has accommodation for 920 patients. A magnificent building for the use of the P O, Customs and Inland Revenue departments, is situated on King street. The churches are in general handsome specimens of architectural skill, there being Ch of England, Cath, Pres, Meth, Bap, German Luth, Cong, Plymouth Brethren, Bible Christian, Ref Epis, Hebrew and African Meth Epis. The school system is very complete, and comprises 18 public and separate schools and a collegiate institute, also a number of private educational establishments. The city has recently erected a handsome building on Main street for the use of the Free Public Library. It contains an opera house, seating 1,200 persons; 6 chartered and 1 private bank, 2 daily newspapers, the *Times* and the *Spectator*, both of which issue weekly editions; 3 monthly papers, the *Ancient Forester*, the *Canadian Live Stock Journal* and the *Portfolio*. The assessed valuation of the real and personal estate is $21,573,100, and the bonded indebtedness $2,536,073. The city is lighted with electricity and gas, has an excellent water supply, the water being pumped from lake Ontario, about 5 mls distant, to a large reservoir on the mountain. It has telephonic communication with the Ontario sytem, the Bell Telephone Company having their headquarters here. During navigation, daily lines of steamboats and propellers connect Hamilton with all the ports of the great lakes and the river St Lawrence. The Desjardins canal gives water communication from Hamilton bay to Dundas. Pop, 44,299. Tel, GNW and CPR. Exp, Dom and Can. Mail daily. Distance from Toronto 39 mls, from Montreal 372 mls, from Detroit, Michigan, 187 mls, and from New York City 488 mls. Horatio N Case, p m.

**KINGSTON.** Is one of the oldest settled portions of Ont, being the location of the fort constructed by Frontenac, in July, 1673, to command the trade of the St Lawrence and the Lakes, and it was long known by his name. This fort stood on the site now occupied by the barracks, and was captured from the French by Gen Bradstreet in 1758, the name being changed to Kingston about 1780. In July, 1792, the Government of Upper Canada was organized at Kingston, but the city was not inc until 1846. It is now the fifth city of the province in point of pop. and is situated in Frontenac Co, of which it is the co seat, at the head of the Thousand Islands, on the River St Lawrence—where it issues from Lake Ontario. The Rideau canal also enters the river here, and furnishes direct water communication with Ottawa and the intervening towns on the route. Next to Quebec, Kingston is the most strongly fortified place in Canada. Kingston has good wharves and is well adapted for the building of ships and steamboats, having facilities second to none on the lakes. The GTR passes about 2 mls n of the city, and is connected with it by a br line, and the K & PR, starting from here, runs n until it forms a junc with the CPR at Renfrew, a distance of 104 mls, and with the O & QR at Sharbot Lake. In manufacturing Kingston takes a front rank; locomotives, cars, steam engines, agricultural implements, stoves, pianos, organs, etc, are manufactured here in large quantities. Iron ore is being extensively mined and shipped by the K & P Mining Co, whose general offices are here. There are also 3 breweries, 4 planing mills, 3 foundries, 2 broom factories, saw and cotton mills, knitting works, chemical works, tanneries and other manufactories of various descriptions. It contains Epis, Cong, Meth, Pres, Bap, Cath Apostolic and Cath churches, and has an excellent school system, comprising 9 public and 2 separate schools, 6 private schools (Cath), 3 convents and several colleges, the principal being Queen's College, inc by royal charter in 1841, in connection with which is an observatory, a museum and a library containing 14,000 volumes, also the Royal College of Physicians and Surgeons, and Trinity Medical School, affiliated to the University, Ladies' Medical College, Royal Military College of Canada and the Dominion Business College. The public school library contains 5,000 volumes, and the library of the Mechanics' Institute 4,500 volumes. There are several handsome public buildings, the court house, custom house, city hall, post office, banks, hospitals, etc. It has 4 chartered banks, besides private enterprises, and 2 daily newspapers, the *British Whig* and *The Daily News*, both of which publish weekly editions (the latter under the title of *Chronicle and News*), *Canadian Freeman* and the *Queen's College Journal*, published monthly. The city is lighted with electric light and gas; has good waterworks and fire department, and is supplied with a street ry, and during navigation steamboats for all parts of the lake system and the river St Lawrence call daily. Stages run daily to Newboro', fare $1, and Napanee, fare $1, and in winter to Cape Vincent, fare $1; twice a week to Sydenham, fare $1, and tri-weekly to Gananoque, fare 25c, and to Inverary, fare 25c. Pop, 16,000. Tel, GNW and CPR. Telephone connection. Exp, Dom and Can. Mail daily. Distance from Toronto 161 mls, from Ottawa 115 mls, from Montreal 172 mls. James Shannon, p m.

**MIMICO.** A P O on the T br GW div GTR, in York Co, 7 mls w of Toronto, the co seat and nearest bnkg location. It contains Epis and Meth churches. The natural advantages of Mimico are great. Its adjacence to the lake and the gentle slope of the land towards the water affords every facility for draining. The railway facilities are great, bringing the place close to the city. The GTR are now laying a double track. The TH & BR, now under construction, will go direct through Mimico, midway between the GTR track and the Lake Shore road, and the CPR is to reach the factories by laying a track from Islington. The factories now being erected will be comparatively exempt from taxation. Nine companies are under bonds to establish their works here. The corner stones of four have been laid, namely, that of the Pease Mnfg Co, Morrison's branch foundry business, Macdonald's tin and galvanized iron works and Barrett's sash and door factory and office and church furniture. The Pease Furnace Co is managed by John T Sheridan and his brother, and the fact of such concerns, which have a large business, being established in Mimico is an evidence of intended permanency. The business of these gentlemen has so grown as to require a separate establishment. Heretofore they have had all the castings and machine work done under contract, and now it is proposed to manufacture these themselves, and also goods that they have been importing they propose to manufacture in Mimico. While large factories are built now, we are assured that they will be doubled in the future. Five more will be commenced in the fall or early next spring. Already a number of lots have been sold for stores. Everything is laid out with a view to making it a beautiful town. There is a large park reserve and telephone connection. Pop, 500. Tel, GNW. ***ABLE STAFF OF TEACHERS***

at lower rates than in any other Ladies' College in the Dominion of Canada. The studies included are extensive, embracing a very thorough course in ENGLISH, with the SCIENCES preparatory to MATRICULATION IN THE UNIVERSITY. The MODERN LANGUAGES, CLASSICS, VOCAL AND INSTRUMENTAL MUSIC, the FINE ARTS, with the ornamental branches; also a course in PHYSICAL TRAINING.

Diplomas are given in ENGLISH LITERATURE, LIBERAL ARTS, MUSIC, FINE ARTS and ELOCUTION, when students are prepared to receive them, the same as other Ladies' Colleges. SPECIAL RATES TO MINISTERS of all denominations, widows and orphans. The health record the very best. A beautiful situation for the school. No day pupils admitted, which makes it a most excellent home for those attending. Has been running over 14 years with a good attendance. Be sure and send for catalogue before making arrangements elsewhere to

**OTTAWA.** The capital of the Dominion of Canada, is most picturesquely situated on the s shore of the Ottawa river, 87 mls from its confluence with the St Lawrence, and is the co seat of Carleton Co. It is easy of access from all points by the GT, CP, CA and the St L & OR, and also by the Ottawa river which empties into the St Lawrence after a course of some 400 mls, and boats run daily during navigation to Montreal, Kingston, Portland and Ottawa river ports. The Rideau canal forms a system of inland water communication extending to Kingston on the St Lawrence river. It was settled in 1827, and was inc a city in 1854. It is well drained and lighted by electricity. The Rideau canal divides the city into two portions, known as the Upper and Lower towns, and reaches the Ottawa river by means of eight well-constructed stone locks. In 1858 the city was selected as the seat of Government for the Dominion of Canada, and the erection of the magnificent Parliament and Departmental buildings was at once commenced, the foundation stone being laid by HRH the Prince of Wales, in September, 1860. These buildings which occupy three sides of a quadrangle, are very extensive, and are handsome specimens of pure Gothic architecture, being the finest examples of that style on the continent, and were erected at a cost of nearly $4,000,000. Adjacent to the city is the city of Hull, PQ. Rideau Hall, the official residence of the Governor-General, is situated in what is known as New Edinburgh, and is a handsome stone structure with 35 acres of well laid out and beautifully shaded grounds attached. The city has wide, regular and uniform streets, and possesses many handsome stone buildings. It contains Cath, Meth, Epis, Pres, Bap, Cong, Ref Epis, Luth and Cath Apostolic, has a university, normal, model, public and separate schools, a collegiate institute and numerous colleges, convents and private educational establishments. It has several excellent libraries and literary societies, an opera house, St James' hall, 8 chartered banks, 5 daily newspapers (3 English and 2 French) the *Citizen*, which is also issued as a semi-weekly, the *Free Press*, *Courier*, *Federal* and *Le Canada*, which are also issued weekly, and the *Evening Journal* a daily and semi-weekly issue, the *Canada Gazette*, weekly, and the *Canada Health Journal*, *Lyre D'Or*, and *St John's Parish Magazine*, issued monthly. The principal manufacturing interests of the city and the neighboring villages are lumber, and millions of feet of sawn boards, square timber, deals, etc, are annually exported to Great Britain, the United States and other places. It has an excellent fire department with fire alarm, telegraph, telephone facilities, a street ry, and in fact all the modern requirements of a first-class enterprising city. Stages daily to Aylmer, Chelsea, Kirk's Ferry, North Wakefield and River Desert, all in Quebec province, and to Richmond, Ont, 18 mls s-w. Pop, 35,000. Distance from Montreal 120 mls, Kingston 115, Toronto 261, Quebec 292 and Halifax 978. Exp, Dom and Can. Tel, GNW and CPR. Mail daily. James A Guoin, p m.
